Hindi
Native or bilingual proficiency
French
Elementary proficiency

ABOUT

I am a Pre-Final year student currently on a journey to find how to use technology to make people's live just a tad bit better, I try to get an insight into how people work and why they follow the ways they do. Adept at working effectively to achieve goals both as a cross-functional team member and individual contributor, I like programming and automating things. I love video editing, developing websites and have a keen interest in cloud computing. Now as fidgety as I am, I would say sometimes it's rather insightful to stop and stand and observe the people around you. You might learn a few new tricks who knows.

EXPERIENCE

PEPCODING | Product Engineer Intern
Jan 2022 - Present
